We also want to say Thank you very much to 'Cent for help e.V' for granted to support to build rooms for our seven young nuns.

Regarding the nun rooms construction process, Before in 2018 we already talk with engineer about the nuns room project. At that time we made plan to build the nun room on April. This year we will talk again with the engineer and decide the time and planning. When everything will fix then send you nuns room construction timetable.
